MEMORANDUM FOR: Project Director of Materiel

SUBJECT : Request for Overseas Shipment Certain Special Clothing

25X1A9a 1. As you know, we have been assembling certain summer and winter special clothing for the pilots of Detachment A. TSS has been making the outside containers for this clothing against a prototype of the backrest cushion of the plane. I am carrying six summer packs with me on my trip to Europe this weekend. The six winter kits remain to be forwarded to [REDACTED] as soon as they are finished - which TSS advises me will be on or about COB Monday 25 June.

25X1A9a 25X1A2g 25X1A9a 25X1A6a 2. I would appreciate it if you would make the necessary arrangements to have these kits packed in Logistics for overseas air shipment and then shipped by MATS to [REDACTED]. The kits themselves have the following measurements: 25" in length, 16 3/4" wide, and approximately 2" in thickness each, thus six of them will make a fairly compact package which will probably weigh somewhere in the neighborhood of 75 to 100 lbs. I have instructed [REDACTED] of TSS to deliver these kits to [REDACTED] - on the 25th. As soon as they come in, he will see that they are turned over to you. I assume arrangements can be made to put these on a MATS flight on or about 25 June and, unless I hear from you to the contrary, I will so advise [REDACTED] when I see him next week.
